

About Circle Hawk Farm

Circle Hawk Farm is a community-based farm and year-round educational farm school. The farm provides hands-on-learning opportunities and garden practice for people of all ages, through: workshops, field trips, summer camps, and internships. Important teaching tools include Edible Forest Gardening and our fish & wildlife habitat restoration project. Deeply rooted in environmental ethics, we use Biointensive and Permaculture techniques to grow food sustainably. Our goal is to grow year-round produce for Thurston County's Food Bank and residents through our CSA.

***Support the Food Bank.
Grow the farm.
Feed your family.***

What does it mean to support our CSA program?

Your donation or purchase of a CSA share will support the internship & work-study positions, as well as tools, supplies and equipment to grow food for 2010 (e.g. retrofit our greenhouse with plumbing, a shade cloth and a fan). This year, we are asking for your support to help keep our dream alive to support the Food Bank. The Food Bank has been a big supporter of the farm over the years and we want to be able to continue providing them with produce.

This year we are specializing in our salad mixes. The mix varies with the season and is loaded with a variety of fresh flavorful greens and vibrant edible flowers. We will donate one half pound bag of salad greens to the Food Bank for each CSA purchased to help the Food Bank fulfill its goal of increasing the amount of fresh, nutritious produce available to its clients.

What you get with a CSA share...

- Fresh, seasonal produce once a week (June- October), nutritional information, and weekly recipes.
- A good feeling knowing that you are helping put money and food back into the local community.
