

Computer Recycling, Education, & Training Volunteer Reward Policy

During any calendar year, each volunteer may obtain the following rewards:

For twenty-four (24) hours service they may be given an Evergreen System.

For fifty (50) hours service time they may be given a Capitol System.

For one hundred (100) hours service they may be given a server system.

Any volunteer may be given up to three (3) Systems in a calendar year. These systems may be Capitol, Evergreen, or Server systems, or any possible mix of these systems, so long as sufficient hours have been logged. This means that if a volunteer were to obtain three Evergreen systems, then that would be the sum total of systems they could obtain in a calendar year, regardless of additional volunteer hours they may volunteer.

There will be no exchange or upgrading of Evergreen systems for Capitol systems, or of Capitol systems for Server systems. Once a system has been claimed, that claim is final.

Any Evergreen system is considered to be the equivalent of any other Evergreen system. CRE&T makes no distinction between the speeds or features of these systems. Likewise, all Capitol systems are considered equal, as are all server systems.

To be fair, there shall be no selection by the volunteer as to WHICH Evergreen, Capitol, or Server system they receive. Such a system will be the first one that becomes available, or in the case where there are many such systems available, the system that resides on the top of the stack shall be considered the appropriate volunteer reward system. This rule is to ensure that everyone has an equal chance of obtaining a roughly equivalent system. There is to be no favoritism shown for one volunteer over another.

Once a volunteer has completed one hundred hours in a six month period, that volunteer is eligible for a fifty percent discount (50%) in the Store, on any items priced less than one hundred dollars (\$100.00.)

In order to maintain the fifty percent discount, a volunteer must complete twenty-four hours (24) service every three (3) months thereafter.
